Ms. Dennis,

Could we please have an extension until Aug 30th, 2018 to respond?

Thank you very much for your time and attention to this matter.

Sincerely,
Jason Kopas

Hello Jose,

Thank you for the response but the only way I can accept it on behalf of the Committee is if the treasurer gives you a designation of counsel in order to respond for the Committee. The treasurer is liable for the Committee and he still has to respond no one can answer on his behalf unless he gets an attorney and designates the attorney to respond on behalf of the Committee and himself in his official capacity as treasurer.

The only other way you can answer for the Committee and the treasurer is to name yourself as the treasurer by submitting an updated Statement of Organization to the FEC.

Please let me know if you have any questions of concerns and I will work with you in order to document the case file appropriately. Enjoy the rest of your day.

Kind Regards,

Christal Dennis

Hello Christal,

First, thank you for your patience on this matter.

Please put me down (the candidate) as the person responsible/responding over the treasurer, Jason Kopas

I have attached a letter documenting our efforts to address both matters in MUR 7423.

I will be checking my email for any replies from you to ensure I give you prompt responses to anything else you might require from us on this matter.

All the Best,

Jose

Thank you!

Jose

Integrity, once sold, is difficult to repurchase, even at 10x the original sales price.

Mr. Kopas,

On July 12, 2018, I sent a notification letter to Friends of Jose Torres for possible violation of Federal Campaign Act and the response was due on or before July 30, 2018. Will you be sending in a response or do you want us to forward the case to the Commission with no response?

If you have any questions or concerns please let me know. Your attention to this matter would be greatly appreciated. Thank you for your time.

Kind Regards,

Christal Dennis
